WHIRLWIND CAMPAIGN

Is Inaugurated to Raise Eight Thousand Dollars In Ten Days.

FOR Y. M. C. A. BUILDING.

Committee Formulated at a Banquet Given Monday Night.

Forty leading business men attended a banquet at the Odd Fellows building Monday night by the local directors of the Y. M. C. A. for the purpose of inaugurating a whirlwind campaign to raise \$8,000 in ten days to complete the building, upon which work was stopped a year ago for lack of funds. The party assembled at eight o'clock and as soon as the banquet was over Mr. F. J. Brownell, chairman of the Board of Directors, introduced Henry E. Rosevear, of Louisville, the State Secretary, as toastmaster, and the following speeches were made: "Hopkinsville's Greatest Asset, Its Young Men," Mayor C. M. Meacham; "A Four-Square Man," the Rev. Harry D. Smith; "Our Opportunity," Judge W. T. Fowler; "How We Did It," William H. Weaver, Henderson, Ky.; "The Campaign," Will A. House, of Louisville; "The Ladies," T. C. Underwood.

The delightful menu was supplied by the Ladies' committee of the Young Men's Christian Association. All of the men present were made members of the Citizens' committee which will canvass the city for the additional funds to complete the building. James West, president of the Commercial and Savings Bank, was made chairman of the Executive Committee. The slogan of the committee will be, "8,000 in Ten Days," and the headquarters will be in the Planter's Bank.

Mr. Rosevear made an especially happy toastmaster and all of the speeches were interspersed with pleasantries and proved to be very entertaining.

Mr. Underwood's speech was in his best vein and its humor and flights of sentiment made a decided hit and the champion of the fair sex went home loaded down with floral decorations. Mr. Weaver, a young insurance agent, also insured everybody against having a dull time while he was up.

A campaign executive committee was formed with Judge W. P. Winfree, chairman; J. H. Anderson, L. L. Elgin, Jas. West and F. J. Brownell. The announcement was made that \$2,000 of the \$8,000 had been guaranteed by the directors and the big deal placed in the window at the Planter's Bank was started with the hand pointing to that figure. It will be moved from time to time, as fast as \$100 is subscribed, until all has been raised by December 20th.

Mr. House will remain to assist in the work.

The collections yesterday afternoon amounted to \$2,300.

Matthews-Lander.

Henderson, Ky., Dec. 11.—Miss Jimmie Belle Lander, formerly of Hopkinsville, and Mr. Sidney Matthews, of this city, were quietly married at the home of the bride's aunt, Mrs. W. H. Overbey, on North Green street, by Rev. J. T. Rushing, of the Methodist church.

THE GREAT REVIVAL.

Thirty-Eight Converts Baptized at Tuesday Night's Services.

MEETING CONTINUES.

Great Good Sure to Be Result of Dr. Jenkins' Earnest and Splendid Work.

The Baptist revival has shown no diminution of interest this week and up to Tuesday night there had been 79 additions to the church, 53 of them for baptism.

The first baptizing took place Tuesday night, and 38 of the converts were immersed in the baptistry of the church.

Fifteen others and probably more will be baptized to-night. Tuesday night Rev. J. A. Kirtley, pastor of the Locust Grove church, also baptized Miss Julia Clark, a recent addition to his church, as his church in the country has no baptistry. The meeting will continue throughout the week, as heretofore.

BANK AT GRACEY

Will Be Ready for Business Middle of January.

Gracey is a growing little town and in one of the best sections of the county. Its people are progressive and intelligent and since the incorporation of the place they have always done everything to build up the place and have been seconded in their efforts by the substantial farmers of the city. They are proud of Gracey and the big trade that has been built up there in the last few years, and they have good reason to be.

The business of the place and the surrounding country is now such as to demand a bank. Knowing this, the officers of the Commercial & Savings Bank of this city have arranged to open a branch bank there. Mr. Hugh C. McGehee, postmaster and merchant of that place, is to be cashier and have general control of the business. The business will be conducted in close touch with the home bank here and the people of that town and vicinity will be furnished with every accommodation and convenience of the home bank.

Mr. McGehee is a live, energetic merchant, well known to everybody in that section and will prove highly acceptable to all in his new departure in business. The bank will be located in his store and it goes without saying that everybody will be treated with the courtesy and fair dealing peculiar to Mr. McGehee. The branch bank will be open and ready for business the middle of next January.

TOBACCO MONEY.

People Will Have Lots of Money for Christmas.

The favorable weather for the past ten days or more has put tobacco in fine condition and the loose weed has been coming in regularly every day. The Regie buyers, the Imperial Co., the American Snuff Co., and a number of other buyers are receiving tobacco faster than it can be unloaded and the wagons have to take their places in line and wait the call of "next." The banks are busy paying out money and every man that brings in his crop goes home with a wad of greenbacks in his pocket. Of course the merchants are doing a big business and Christmas shoppers from the country are buying quite freely.

LEADING LADY

Of Kennedy Stock Company
Shot by John Kennedy.

During a production of "A woman's Sacrifice" at Washington, Ind., by the Kennedy Stock Company, which played a week's engagement here in November, John J. Kennedy was scheduled to fill the villain in the last act. Kennedy fired and a paper wad struck the leading lady, Winifred Greenwood, in the thigh, so badly injuring her that a physician's services were required. Fire from the gun set fire to her dress, but the flames were extinguished before serious damage resulted. The villain played his part, falling to the stage, apparently dead, and even Miss Greenwood's cry of pain failed to arouse him.

SYRUP OF FIGS

Acts Gently,
Acts Pleasantly,
Acts Beneficially,
Acts truly as a Laxative.

Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. Scottsville, Ky., Dec. 6, 1906.
Editor Kentuckian:—On the 22nd day of September, in conjunction with Mr. J. B. Walker, of your county, we began doing farmers' institute work in Kentucky. Our itinerary consisted of twenty-three counties located in the Southwestern part of the state, usually designated as the hilly and mountainous, where mining and lumbering are the chief interests and where moonshiners and feudists were popularly supposed to constitute a large part of the population. As to its being hilly and mountainous, it is literally true; as to moonshiners and feudists, it is not. In all our travels north, south and west we have never found better or more law-abiding, or temperate people; less ruffianism and drunkenness are found here than in my own town. One of the best tests of good citizenship is the consideration given to woman and this was in evidence all the way from Harlan to Christian county. In pure agriculture, horticulture and stock-raising this part of Kentucky, as a whole, is not equal to Illinois, Indiana and Ohio, though there are small areas like parts of Warren, Allen and Simpson counties that are not surpassed in those states. In coal and timber, these twenty-three counties are unequalled east of the Mississippi river. Kentucky has too many tenants, reversing too many landlords, for best results in agriculture and kindred professions. The large land companies, (so called mining) are a drawback to the extreme southeastern part of the state, as they have tenants exclusively, who are not interested in wards, schools and churches. You cannot expect a tenant to be as much interested in the material development of a locality as the one who owns, lives in and operates his farm. These counties have opportunities in stock raising and fruit growing that are not to be found in others of the sisterhood of states. Kentucky has

more lime stone soil than any other one in the union. Its blue and orchard grass, permanent pastures are not equaled any where. Its farm lands are cheaper than the only true standpoints, viz: production than in any of those adjoining states. It occupies that happy middle ground between the land of ice and snow and that of flowers and tropical fruits all in all our itinerary was both pleasant and profitable. Pleasant, because of our association with so many pure and bright men and women. Profitable, because of the many things we learned, and the many people we met. (Signed) J. L. Davis, Louisville, Ky.

FIVE ARRESTS

Made Saturday, One of Them Being for Swearing.

The professional "cusser" is not having his own way this year. There have been probably a dozen arrests this year for that abominable habit. One of the five arrests Saturday was for this offence against decency on the streets and the police expect to take in every one who violates the city ordinance. There were also three arrests for drunkenness and one for breach of the peace.

Police Matters Dull.

Since our last issue the police have hardly had enough to do to keep up a good circulation of the blood. One fellow was arrested for loitering on the streets and two people for fornication. Every day "looks like Sunday" at police headquarters now and the blue coats are getting nervous. By their efficiency they seem to be about to place themselves in the condition in which poor Othello woke up and found himself one morning.

"TOMB OF THE CHRISTIAN"

Peculiar Burial Place Erected by Monarch in Algeria.

The Tomb of the Christian in Algeria is a pyramid on the summit of a hill more than 200 feet high, at the edge of the sea, says the Antioch.

It dates back to before the time of St. Paul, having been built by the order of Julia II, the King of Pontus, as a burial place for himself and his wife, Cleopatra, the daughter of Cleopatra and Mark Antony. The only daughter of Julia and his wife was Drusilla, who married Festus, the governor of Judaea in the time of St. Paul. The tomb can be entered by a low doorway beneath one of the four false doors. These have moldings on them of a cruciform shape and may account for the title, "The Tomb of the Christian."

The passage within the pyramid winds round, and eventually leads to two chambers shut off from it by folding doors, which can be moved up and down by levers. The tomb must have been rifled of all it contained centuries ago, though some think that by excavating in a downward direction it might still be possible to discover the burying places of the king and queen, supposing the two chambers, like the false doors outside, to be a blind. Doubtless, the younger Cleopatra had brought the idea of making a royal mausoleum in the shape of a pyramid from Egypt. Portions of a marble statue of Egyptian design were found at Cherd-el, suggesting that an Egyptian colony may once have existed there. There are two other similar monuments in Algeria, in the provinces of Oran and Constantine, respectively, the latter being considerably older than the Tomb of the Christian, which, however, is the only one referred to in ancient writings.

BIRDS' COURTING COLORS.

The primary use of the flashes or bright colors exhibited by birds in flight was probably for purposes of courtship. In "displaying" before their mates birds almost always droop their wings and expand their elevated tails, thus showing off to full advantage the conspicuous colors or markings.

It is diverting sometimes to note the tricks which the males of various kinds of birds have acquired in order to display all their charms. Pigeons, for instance, are very magnificent in front, with rainbow gloss upon the throat and breast; and these are fully displayed in the act of cooing, when the male bird sweeps toward the female on tiptoe, with head erect and throat expanded.

But the pigeon is also very handsome behind, with silver-blue back and broad, black-barred tail. So, as he cannot display these when standing on tiptoe facing his mate, he pretends, round at the conclusion of his coo, and gives her a chance of admiring his back view.

TWO DESTRUCTIVE.

The woman who was enjoying a drive in the country pointed with surprise to a levy of white butterflies which was flying around and around in a dizzy circle. "Aren't they lovely?" she asked, enthusiastically.

Her companion grunted: "They may look lovely to you, but the farmers hate 'em and call 'em cabbage butterflies. They were harmless enough, but their larvae devour cabbages with enormous rapidity; hence their name. When the farmer sees an unusual quantity of white butterflies hovering around he looks to his cabbages. He knows he will find myriads of little worms on them, and that it is only by the most strenuous measures he can save them. This year there have been flocks of the white butterflies, and it may mean that we are to go cabbageless this winter. At any rate, if you buy any cabbages, snark them a good long while in salt and water before using them."

TO A HIGHER COURT.

Harry is the son of a lawyer who talks shop a good deal at home. He had been naughty and his mother, after getting him into a back room upstairs, approached him with a slipper upon which she had secured a firm grip.

"Hold on, ma," the boy howled, "I'm going to carry this case up, and you ain't got no right to execute judgment before we get a decision from pa."

Deadly Serpent Bites.

are as common in India as our stomach and liver disorders with us. For the latter however there is a sure remedy, Electric Bitters, the great restorative medicine, of which S. A. Brown, of Bennettsville, S. C., says: "They restored my life to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Guaranteed at R. C. Hardwick's druggist price 50c.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If you baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

HOG CHOLERA

The Problem of a Cure is Now Solved.

The much dreaded disease, hog cholera, has lost its terror to those who are posted on modern methods of treating the disease. It is now a curable disease. Any practical farmer who will follow the instructions given by the manufacturers can stop the worst outbreak of disease that ever came and save almost every hog able to take the treatment in full directions for curing hog cholera is fully explained in this little booklet. Every farmer should have one. They are free, and it is hoped that the people will study up on this new method of treating the disease so they can feel safe from the disease when raising hogs and also so they will understand how to keep the cholera out of this country. The remedy is also on sale by E. W. Stegar & Dickson, down at Masonville, who will also furnish the farmer a copy of Snoddy's book on hog cholera, who will call there for it.

This remedy is the greatest worm remedy and thrift producer for hogs there is on the market. The extra gain they will make from its effect will return the farmer an average of \$5 in this extra gain for every dollar's worth he invests in the medicine he uses properly and in right. Hence, no remedy is not an expense to a farmer but is a profitable investment, and one that gives a greater profit and enables him to save the farm the same amount of money can be invested into when properly used. It is impossible for a cholera germ or worm of any kind to live in a hog while that hog is under the influence of this remedy. The remedy will destroy every worm or germ of this kind and the hog will get well in a short while and be as thrifty as he ever was.

There are many imitations of this remedy being put on the market. Let everyone be careful that they do not buy an imitation of the goods. The public will know the genuine Snoddy Remedy by its having Dr. Snoddy's picture on every label. If a medicine for hog cholera is offered you that is claimed to be the Snoddy Remedy and does not have Dr. Snoddy's picture on the label, refuse it, because none are genuine without this picture. Dr. J. H. Snoddy is the original discoverer of the remedy and the Dr. J. H. Snoddy Remedy Co., uses his picture as a trademark.

For further particulars call on the Planters Hardware Co., Incorporated, Hopkintonville, or E. W. Stegar & Dickson, at Masonville, Ky. The remedy is manufactured by Dr. J. H. Snoddy Remedy Co., Alton, Ill.

The Christmas Dinner.

In spite of the fact that the world dyspepsia means literally bad cook, it will not be fair for many to lay the blame on the cook if they begin the Christmas Dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the cook! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, cramps appetite, and makes eating the pleasure it should be.

THIS CAT ATE CUCUMBERS.

Animal with Strange Tastes Has Been Living in Wells.

A cat that eats cucumbers and squashes has just been discovered in the town of Wells and so far as known there is no other like it in York county. The animal has been living on Elm farm, which is owned by Mrs. Vesta F. Hammond, and for some years the people living on the place have been troubled by some animal eating into the cucumbers and squashes and ruining a great many of them. Only the very outside of cucumbers were left and the squashes were faring about as badly.

It was a long time before it was discovered what was doing the work. The cucumbers and squashes were harvested and it was thought that they would be all right in the barn. One day Charles Graves, the hired man, went into the barn rather quickly and there found the cat eating away on a ripe cucumber and had already put one of the squashes out of business so far as its ever being made into pies was concerned. Further operations along this line were then prevented by the disposition of the cat that preferred cucumbers without any vinegar, salt and pepper to pure country milk without any water in it.

The cat is now in his last resting place as a reward for being a faithful mouse catcher.—Biddford Journal.

In some parts of the West Indies the negroes speak with a brogue. They are descended from the slaves of the Irish adventures who accompanied the Spanish settlers. An Irishman arriving at a West Indian port was accosted by a negro fruit vender with "The top of the morning to ye, an' would ye be after wantin' to buy a bit of fruit, sor?"

"The Irishman looked at him a moment.

"An' how long have ye been here?" he asked.

"Goin' on three months, yer honor," said the vender, thinking of the time since he had left his inland home.

"Three months, is it? Only three months an' as black as that? Faith, I'll not land."

COMPENSATING ADVANTAGE.

"They say you are but the servant of the trusts," said the reproving friend.

CUBAN MINISTER TO THE U. S. Recommends Pe-ru-na.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban Theater, Matanzas, Cuba, he said: "I have seen many and listened under the spell of eloquent speech and in the grip of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peru-na Drug Mfg. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

Mr. Will A. Hoffman, Hagerstown, Ill., writes:

"I gladly give my testimonial with the thousands of others who have been cured by the use of Peruna.

"I had catarrh of the head and throat, I took cold easily and was dizzy-headed.

"I was all run down and hardly able to work at all when I began using Peruna.

"But, now, after using it about six months I am well and strong."

There is no remedy in the world which has proven so popular for catarrh as Peruna. It has been used for more than thirty years and cured thousands of cases as proven by our testimonials. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

RELIC OF THE MAYFLOWER.

Dishes from Historic Ship Chartered
as Heirlooms by Denver Woman.

Probably few are aware of the fact, but a direct descendant of a signer of the declaration of independence and a man who crossed to the new world in the Mayflower is living in Denver. She is Lula Elcta Bartlett, great granddaughter of Josiah Bartlett, who signed the declaration of independence. Her great great grandfather was one of the men who found Plymouth and journey to cross the water in the Mayflower.

Elsha Bartlett resided on the soil later called Massachusetts. It is from him that Miss Lula Elcta is descended.

Although the Bartletts who came before her ranked with the elite of society and aristocracy, she is happy and content to earn her living working as a seamstress.

Miss Bartlett spends her evenings with many other lonely young women in the Young Women's Friendly club, 2243 California street, and she lives in the simplest manner.

The home of the Bartlett family has been broken up. The mother died when they lived in Hastings, Neb., and the family scattered. The only son is in Kansas City, one daughter is in Los Angeles with her father and the fourth and last member of the family is toiling daily in Denver.

One of the most precious wedding presents received by Miss Bartlett's father and mother when they were married in 1856 was a portion of a set of dishes brought to America by the Bartlett brothers in the Mayflower. These are the last dishes that are known to exist which came over in the old ship in 1620.

Miss Lula Bartlett, of Denver, is now the happy possessor of these valuable and historic pieces of chinaware.—Denver Times.

NATURAL BRIDGES.

It is commonly believed that natural bridges, of which the natural bridge of Virginia is the best known American example, are due to the falling in of cavern roofs, leaving only a part to span the stream which the destruction of the cavern has brought to the surface.

By a study of the North Adams natural bridge Prof. Cleland has been led to the conclusion that in this case at least the origin is quite different. In this case the bridge seems to be due to the solution of the limestone along a joint plane near the former course of Hudson Brook.

At first only a small amount of water seced along the joint plane, but after a while it made a channel large enough to divert the entire brook under the surface, giving rise to the bridge. Walcott had previously offered a similar theory for the natural bridge of Virginia, and Cleland concludes that, while the falling in of cavern roofs may occasionally give rise to natural bridges, the most common cause for such bridges in marble, limestone, sandstone and lava is that outlined above.

HARD ON CLOTHES.

"You look so nice in your new fall suit," said Mrs. Drowse, "don't you think you'd better come to church with me this morning?" "Not on your life!" replied Mr. Drowse, "it doesn't do a new suit any good to go to sleep in it."

FACTS ARE STUBBORN.

IF HOPKINSVILLE PEOPLE ARE NOT CONVINCED BY LOCAL IT'S MORE THAN OTHER PEOPLE.

Facts are stubborn; Some may be disputed, None can be disputed. A fact is always hedged about a proof; Has to stand the test of investigation. Or it drifts to the realm of doubt. Investigate closely the following: The closer the scrutiny the more convincing the results. A Hopkinsville citizen speaks here. Speaks from experience and conviction:

Miss L. A. Hester, 212 East 14th Street, says: "To walk for any distance or to over-exert myself in any way intensified the aching in my back from which I was for a long time a constant sufferer, and if I caught cold it seemed to settle in the same region and made me most miserable. When rising in the morning I felt stiff and sore and often found it difficult to dress myself. Another symptom of my complaint was a weakness of the kidneys which annoyed and distressed me beyond words. I doctored but found little if any relief until I tried Doan's Kidney Pills which had been strongly recommended to me, and which I procured. They did me a vast amount of good. The pain in my back ceased, the secretions were regulated and my health was improved generally."

For sale for all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

THE COMMON ENEMY.

"What's the matter with all you swamphursters?" demanded Citizen. "You all appear to hate Newcomb and yet he's a decent sort of fellow."

"Juh!" snorted Subbubs, "the miserable chump bought his wife a \$30 bonnet the other day and now there's no peace in our homes."

Itching piles provoke profanity but profanity won't cure them. Doan's Ointment cures itching, bleeding, or protruding piles after years of suffering. At any drug store.

Pure Chocolates.

The following is an extract from a letter from the house from which I buy my Chocolate Coatings: "As to the Pure Food Law, yes, it most certainly does include Chocolate Coatings, but we beg to state that you need have no fears as to the purity of the goods that you are using. They are strictly pure, and fully come up to the standards required by the new law."

TURQUOISE MINES OF PERSIA.

Large Output Despite Primitive and Unscientific Working.

The famous turquoise mines of Nishapur, in Persia, are famed to the Muscovite-Turkey of Moscow, in partnership with the Russian Government, for a annual payment of 10,000, or nearly double the sum paid for the same quantity of turquoise elsewhere.

There is a considerable export of large, light stones of a milky hue or containing white veins to India. These sell at most for 6p. per stone, and are, generally speaking, very much cheaper, being in some cases valued as low as 1d. Stones known in England as matrix, which are termed arabi at Meshed, are exported in considerable quantities to that country.

The export of precious stones, as given in the statistics, is evidently much smaller than the output, and probably there is a good deal of smuggling. In spite of this the registered exports amount to over £9,396.—The Watchmaker.

FAITH.

The Minister—The trouble with you, my brother, is that you lack faith.

WEIRD.

"Well?" said the anxious mother, standing in the room softly as the front door banged.

"It is no use, mother," said the sweet girl, shuddering, "I cannot marry that man."

"Mother," she continued, "didn't you know he had a glass eye?" "Yes, Norah, I was aware of the slight infirmity."

"Slight infirmity?" said Norah, with another shudder, "slight! Oh, mother, mother! He was here, sitting on the sofa not ten minutes ago, pouring out his whole heart and wealth of love to me, and looking at me with eyes—or at least one eye—full of affection, and just at the most impassioned part a fly perched right in the corner of it and walked slowly across, and he never even blinked. Oh, mother, it was awful!"

MORE SEAMSTERIES.

Visitor—Do you have many fogs here? Old Salt—Fogs? Bless me, I was lookin' over this 'ere railing once, lost me balance, and fell over, and the fog was so thick that it kept me up, and I had to cut me way down to the beach with me knife!—Half Holiday.

THE ROPE FOR MURDERERS.

Vermont's retiring governor, Farmer Bell, went out of office as firm a believer in capital punishment as he went in. "During my term," he said in his valedictory message, "it became my duty to see that this law was carried into effect. In the general discussion of the subject that occasioned in the state as well as elsewhere I have been deeply impressed with the fact that Vermont has more regard for the dignity of law than for sickly sentimentality."

THE SECRET OUT.

proper strength. The exact working formula for making these medicines cost Dr. Pierce's collaborating Chemists and Pharmacists many years of study and experiment. It is perfected they say, is a perfect pharmaceutical preparation, and is the only active, powerful, and safe medicine in the line of medicine that will keep un-dermined the system.

Dr. J. C. HARRISON, of the town of New York City, Iowa, writes:

"I had not been married more than a year when I was afflicted with a very bad case of female trouble. After consulting with a physician and having tried many remedies, I was informed that an operation was performed. I would be an invalid all my life. Hearing of the wonderful cures effected by Dr. J. C. HARRISON, and believing that there must be a cure for almost every ailment, I determined to make one more effort. I wrote to Dr. Pierce, and I will never forget his kindly advice, telling me to follow his instructions faithfully and not to submit to an operation. In five months my improvement was so noticeable to friends that they began to inquire about my method of treatment. I was pleased to tell them that the wonderful means of cure that I had most fortunately found, and so many ladies applied to me for information regarding Dr. Pierce's World-Famous Kidney and Bladder Pills. I felt in duty bound to give them the benefit of my own experience, and I have since used by my recommendation, and in one year's time, nothing but a perfect cure. I could have believed it had I not seen the parties and known the facts."

Dr. Pierce's Pellets. Good temper is a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken again. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never grip. Try all druggists.

AMUSEMENTS.

The Jamestown New York Press
says:

"The walls of the Samuels almost
bulged with the audience gathered
to pass upon the performance of a
'Woman of Mystery' by Courtenay
Morgan, last evening. The company
gave a fine production of the play.
The stage settings were superb.
Miss Morgan is a beautiful and tal-
ented actress. Her personal charm
of face and form fitting the charac-
ter of Ayshea exactly; and the ap-
plause she received was merited
genuine. She is ideal."

This great play will be presented
at Holland's Opera House, Friday
night, Dec. 14.
